### TIPS:

- Know what level you need to register in BEFORE registration begins.

We are able to do skills assessments for PRIVATE LESSONS ONLY

When registering, please indicate a skills assessment is required and include what level you think the participant should be enrolled in.

If your participant is registered in the wrong level for group lessons, we will do our best to move them however, we cannot guarantee this is possible.

Private Lessons are also being offered in French. Please indicate a french instructor is preferred when registering.

\*NOTE: Rookie/Ranger Patrol Levels are now considered advance courses and are only being offered in group sessions due to the number of hours required by Lifesaving Society to complete the course

We're here to help!

We understand the transition from Red Cross Swim Kids to Lifesaving's Swim for Life program can be tricky. If you're unsure of what level to register in, please give us a call or send us an email and we will do our best to help!

Please keep in mind that with the new transition chart and swim requirements, there will very likely be a need for swimmers to take the same level more than once.
