

Burnt out?

RECYCLE YOUR COMPACT FLUORESCENT LIGHTS AND TUBES!

Find your nearest drop-off location
www.lightrecycle.ca/mb | 1-888-772-9772

KEEP FLUORESCENTS OUT OF THE LANDFILL

Compact fluorescent lights (CFL) and tubes do not belong in the garbage. LightRecycle accepts burnt-out fluorescent lights for recycling – free of charge. Do your part and take your fluorescents to a LightRecycle collection site for safe recycling.

SAFETY TIP

Fluorescent lights should be handled with care. Do not puncture or break them. Wrap lights in paper or place inside original packaging before heading to a LightRecycle collection site. For information on safe handling and clean up procedures, visit Health Canada's website www.hc-sc.gc.ca.

FIND A COLLECTION SITE

Visit www.lightrecycle.ca/mb or call 1-888-772-9772.

Only residential-use CFL bulbs and tubes are accepted. Incandescent, halogen, LED and all other lighting technology are not accepted. The Manitoba LightRecycle program is operated by Product Care Association.
