

**Town of Morris
Policy and Procedures
2009
SIDEWALK POLICY**

Future development and replacement of sidewalks in the Town of Morris will proceed according to the following provisions:

1. In the business area there will be sidewalks on both sides of the street.
2. One block on either side of Main ST. (75 Highway) there will be sidewalks one side of the street for those streets that are only residential.
3. In the 2nd and 3rd block from Main Street, sidewalks will be provided as needed. Examples would be the school, hospital, swimming pool, walk ways, etc. Residential streets would not have sidewalks.
4. Where sidewalks are deemed necessary, they will be maintained in winter with some exceptions. As an example an exception might be the sidewalk to the swimming pool.
5. All new sidewalks will be 5 feet wide.
6. Where existing sidewalks become unusable, we will remove them, fill with topsoil and seed grass.
7. Residences at the end of a sidewalk run where replacement is not in the policy, may request removal of the sidewalk before it comes.
